

Classic™ Inground Pool Cleaner

By Pentair Water Pool and Spa®

Join more than 3 million satisfied owners worldwide

For optimum cleaning performance, simplicity and convenience, choose Kreepy Krauly® Classic™ pool cleaner, the most popular suction-side cleaner in history.

- Turbo-action swivel design and automatic regulator valve deliver optimum water flow for maximum cleaning power.
- Engineered to provide optimum cleaning performance from the water line to the pool bottom.
- Works without a booster pump, attaches without tools to pool skimmer or vacuum line fitting—more economical to purchase and operate than pressure-side cleaners.
- Automatic valve regulates water flow to set the ideal travel speed for more thorough cleaning.
- Original “one moving part” design for years of dependable service—no wheels or gears to replace.

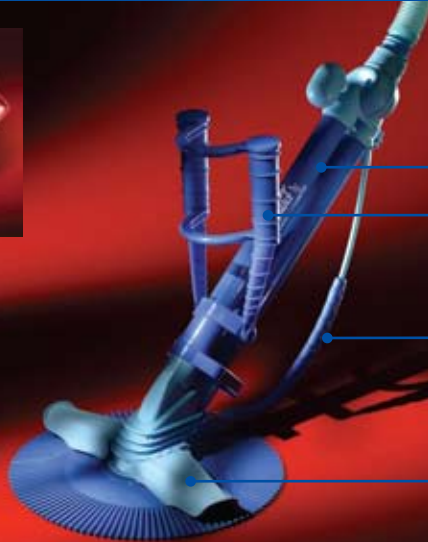

Nothing escapes the Kreepy Krauly Classic. (Shown here with Universal Seal for all pool surfaces, and at top with Starfish Seal for hard to clean concrete/gunite pools with intricate shapes and/or tight corners.)

Classic™ Inground Pool Cleaner

Automatic Regulator Valve. Sets ideal travel speed for more thorough cleaning.

Flapper. The only operational part is housed inside the unit. Responsible for dividing water flow to help propel the Classic.

Drive Tubes. Where water flow is directed to generate kinetic energy for mobility.

Dive Float. Part of the exclusive directional guidance system that helps the Classic consistently climb pool walls.

Roller Strap. Protects the unit, allows the Classic freedom of movement around steps and ladders.

Wings. Channels leaves, grass and debris directly to your skimmer and/or pump basket.

Seven reasons why more pool owners demand the cleaner with the funny name

- It's proven. Our patented design and rugged construction have been put to the test in more than 3 million pools worldwide.
- It's reliable. With only one operational moving part—the flapper—Kreepy Krauly® Classic™ pool cleaner is famous for long, dependable service.
- It's automatic. The Classic works when your pool pump runs, using your pool's existing circulation system to power it around your pool.
- It's simple. No need for booster pumps, bags or compartments to empty, wheels or gears to jam, or diaphragms to replace.
- It's thorough. Due to its exclusive dive float directional guidance system, the Classic vacuums and cleans your entire pool from the water line to the pool floor.
- It's backed by the largest pool equipment company in the world. Got a question? Just contact our toll-free customer helpline for help. Live technical experts are there to help in the U.S. and Canada.
- Two-year limited warranty. See warranty for details.
