Weight 195kg

Cleaner x 500 = 20ft Container

- Minimum operating flow rate is 21g/min* = 961/min or 5.7m³/HR
- 10 YEAR Guarantee on the motion valve

The MSI Cruiser C400 Automatic Cleaner is designed to offer a solution to the pool owner. The Cruiser is so easy to use, simply secure the flexible hose supplied with the Cruiser directly into the skimmer or vacuum point and attach the other end to the Cruiser suction head. See the instruction booklet.

The suction from the pool circulation pump sets the Cruiser in motion collecting debris dust and leaves from your pool leaving it clean and inviting.

Unlike other cleaners the C400 is designed for use in both above & in ground pools making it not only the number one choice for the pool owner but also for the pool shop. The Pool Cruiser is designed for use in all pools be they liner, tile, mosaic, fibreglass & marblite. All Cleaners come complete with enough* hose to suit up to a 30ft x 15ft - 9m x 5m Pool. Plus flow valve and deflector ring for ladders.

*Extra hoses are available in 1 metre lengths

ADVANTAGES

- Designed to give you years of service
- Suits all pools*
- Cleans in a random pattern
- Just leave it to operate by itself!
- 10 Year warranty on the motion valve

*Roman ends or inset walk ways can sometimes prevent the head from entering these areas
