

# HAYWARD®

The secret for a successful pool

PUMPS

## Booster Pump

The Hayward Booster Pump is specially designed for operating all pressurised cleaners with the greatest efficiency.

### The ADVANTAGES

- + Replace a 1 HP booster pump
- + Easy to connect and maintain with its 50mm outlets
- + The main body is made of thermoplastic resin, with a high resistance to chemical and salt corrosion

Service-ease design provides easy installation and maintenance

**2 YEARS WARRANTY**

### EFFICIENCY

- ▶ 50 mm plumbing union fittings improve performance and allows easy installation and removal.
- ▶ Tall mounting base allows for increased motor ventilation as well as protection from flooding.

### POLYVALENCE

- ▶ Suitable for all pressure cleaners requiring a booster pump.

### EXTRA DURABILITY

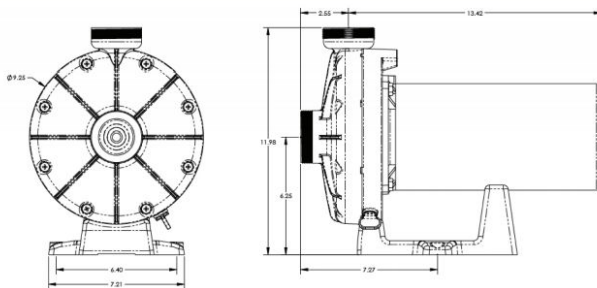

- ▶ Resists chemical and saline corrosion in normal use.

### EASY OF USE

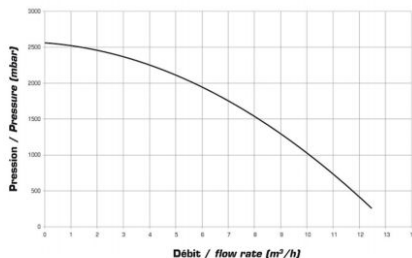

- ▶ Easy installation and removal.
- ▶ Drain plug requires no tools for installation and removal.

### FURTHER INFORMATION :

With its special design, it can be installed with a cartridge filter or a filter skimmer over the suction outlet (or upstream of the pump) to save space.
